Option Three
Connect with USB interface of USB charging plug.

Notes：
Robot charging time is about 120 minutes. It can be used after charging for 60 minutes.

2

▲Battery Instructions

- There is a certain risk when using lithium battery. It may cause fire, body injury or property loss. Users must be aware of the risks and take full responsibility of using battery improperly.
- If battery leakage occurs, please avoid contacting your eyes and skin with electrolyte. Once it happens, please wash your eyes with clean water and seek medical care immediately.
- Please remove the plug immediately if you sense any peculiar smell, noise or smog.

Battery Charging
- Please use the charger from original factory to ensure your safe usage.
- Do not charge dilatant or outworn battery.
- Do not over charge battery. Please unplug the charger once fully charged.
- Do not charge the battery next to inflammables, such as carpet, timber floor or wood furniture or on the surface of electro-conductive objects. Please always keep an eye on the battery when charging.
- Do not charge battery which not cool down yet.
- The charging temperature should be between 0℃ to 40℃.

Battery Recycling
- Do not dispose the battery as daily rubbish. Please familiarize yourself with the local garbage disposal method and dispose it according to the special requirement.

Control Your Robot

1. Power
Power On:
Hello, buddy! I am your new partner, Cady-Wida. I have a lot of skills. I can sing and dance.
Auto Display:
① Yoohoo! My friends, come on. Let's rock and roll. Music! (Music and dancing)
② It is so cool. Just relax, listen to the music. (Music)
③ My friends, it was so nice to have met you! (Sound effects)

2. Stand-by
The robot would speak to you every 20 seconds in Stand-by Mode.
① Oh my, why don't you play with me!
② Hi, I am an intelligent robot Cady-Wida. What's your name?
③ I am so bored. Come on, let's play together.

3. Slide Forward/ Backward

Slide forward
Slide backward

5

Turn left
Turn right

5.Walk Forward/ Backward

Walk forward
Walk backward

6. Volume +/ -
There are 5 levels, with default at level 4. Press to turn volume up until full volume, and then press again to turn volume down.

7. Stop
Press "Stop" button to exit the current mode and turn into Stand-by Mode.

8. Program
Press "Program" button to execute commands or replay programmed movements. Use all buttons except "Volume" button to program the robot with a maximum of 50 movements. Press "Stop" button to exit Program Mode.

6

9. Dance
Press "Dance" button, the robot would begin to dance along with music.
Press "Dance" button again to start the next dancing clip.

Dancing Clip 1:
Let's dance together! (Music) Where is the applause?
Dancing Clip 2:
Let's rock and roll. Music! (Music) It is so cool!
Dancing Clip 3:
Shake your body. Music! (Music) Please give me your applause.

10. Patrol and Obstacle Avoidance
Patrol Mode
Press "Patrol" button, the robot would start with "I am very happy today!" and "Let's go on patrol. Please follow me", then play music whilst moving forward.

Obstacle Avoidance
Under Patrol Mode, once detecting obstacles in the way, the robot would deliver messages as reminders, "Ah-no, it is rubbish in the way. Let's go by other way." "Don't stand in my way, please!" Then it would move backward and turn left or right on occasions to avoid obstacles. The patrol would last about 90 seconds, end with "My buddy, have a rest! I will see you next time."
11.Demo
Press "Demo" button and the robot would reply with "Received your order. Immediately executed." and display movements, dance, play music and speak mechanical language.

7

12. Gesture Sensor
In Stand-by Mode, user can use gesture to control the robot to move forward and backward, turn left and right. It will start playing sounds automatically when it moves.

Forward
Backward
Turn Left
Turn Right

13. Low Battery Attention
When the battery is running out, the robot would warn of low battery: "I am running out of my power. Please recharge. Bye bye!"

14. Music
Press "Music" button and the robot would start with "Let's listen to the music and relax." and play 5 clips of songs in total, coupled with slow moves and eye lights flashing. Press "Music" button again to listen to more songs.

15. Mechanical Language
Press "Mechanical language" button to hear 6 clips of mechanical language messages.
